Company Profile

Gil Technology is a wireless networking company dedicated to creating value for its clients. By exploring wireless market trends, utilizing the latest technology and adapting the most efficient supplying chain management, we design customized wireless network solutions to optimize customer networking cost structure. We employ new technology to build the "right product" to form a profitable business model that will benefit our customers and enhance the quality of their services. In addition, Gil Technology is devoted to providing excellent service by continuously adapting product lines and business strategies from the perspective of our esteemed clients. At Gil, we are committed to find networking solutions that work for customers and make their business successful.
