Company Profile

Established in 1983, Microelectronics Technology Inc. (MTI) was Taiwan's first microwave and satellite Communications Company. For 25 years, MTI has pioneered the wireless communications industry in Taiwan and continuously cultivated the development of microwave integrated circuits, focusing on the design, manufacturing and sales of niche and promising products within the microwave electronics market. MTI's work and contribution have been essential in solidifying Taiwan's position in the global high-tech area.
