 Others \_\_\_\_\_

### Company Profile

**TECOM provides comprehensive OEM/ODM design and manufacturing services for WiMAX Base Station and Indoor /Outdoor CPEs**

With more than two decades in the network communications industry, TECOM is Taiwan's leading vendor for wire and wireless networking equipments. With its superior capabilities in the development of core WiMAX technologies and its extensive industry experience, TECOM was awarded by the Ministry of Economic Affairs (MOEA) of Taiwan as the exclusive base station technology developer for the WiMAX Acceleration Program. In this role, TECOM is taking charge of the development of proprietary domestic WiMAX base station technologies.

TECOM chairman Dr. C-K. Liu noted the company's long-term involvement in the development of long-range wireless network base station and CPE technology. TECOM not only possesses a competitive advantage in base station technologies, it also leads the industry in WiMAX integrated access technologies, product development, and network management applications. TECOM is bringing its considerable R&D resources and experience with base stations to bear on domestic development of WiMAX base station core technologies and technical collaboration with leading technology partners worldwide. The capability and experience are utilized in the development of WiMAX Pico and Femto class base station products.

Today, TECOM provides a comprehensive product portfolio of 2.5Ghz and 3.5Ghz frequency band CPE products. TECOM's WiMAX products provide a solid end-to-end access network solution with excellent cost performance ratio. TECOM offers both the complete turnkey and customized OEM/ODM services for network equipment providers and operator customers.

### Background Information

Tecom Co., LTD is a leading OEM/ODM manufacturer of telecom equipment in both fixed and mobile communications. At Tecom, we provide indoor and outdoor convergence solutions for wired, wireless, data, voice, and video.

### Address

23, R&D Road 2,  
Science-Based Industrial  
Park, HsinChu, Taiwan
