**Company Profile**

Wha Yu (M.Gear) was set up in 1981. With the development of electronics industry, M.Gear has always expected itself to be a global professional antenna provider. We continuously contribute to the main market segment for wireless consumer application, and now we aim at the high-tech field and the market with high entry barrier to have an in-depth development of comprehensive applications of assorted antennas.

To meet the requirement of the growing WLAN market form Access Point / Router and Laptop to a variety of handheld devices, M.Gear has made its commitment of resource investment of diversified antennas, including Laptop, Mobile Phone, GPS, and DVB-H. Moreover, we are proficient in the supply of antennas for WIMAX CPE devices and Base Station.

Headquartered in Hsin-Chu, Taiwan, M.Gear also has two manufacturing facilities (Suzhou and Dongguan) and one grand business operation center (Shanghai) in Mainland China. With more than 3,000 employees worldwide, utilizing superior engineering resources, and well-built operation systems, M.Gear is well positioned to meet the design and manufacturing demands for our customers. We will unceasingly keep monitoring every imperceptible fluctuation of the relative industries to step forward into the new era with our customers and devote our best efforts to the future of commoditization.
