Company Profile

About Accton

Accton was established in February 1988 by a small group of young engineers, dedicated to the design of Token-Ring and Ethernet products. Accton was publicly listed in Taiwan in November 1995. Over the years, Accton has become a world-class OEM/ODM total solution outsourcing partner for advanced communication products, and one of the world's pre-eminent data communications companies.

Accton has established a worldwide reputation for producing superior LAN equipment and Ethernet products. With more than 2,500 people - nearly 1,000 of whom are engineers - Accton now delivers a variety of Ethernet, Fast Ethernet and Gigabit networking products; including hubs, switches, Internet Access Devices and Wireless networking solutions.

About Edge-CorE

Edge-CorE, an integrated service team, a subsidiary of Accton Technology Corporation, was established on January 1st, 2004, with a view to provide an integrated service platform for Carrier / Service Providers, System Integrators and Enterprises. With the core competence under Accton Group - IC design techniques, self-developed software platforms, and high-quality testing

New Edge-Core FTTx Solution

With 4 LAN ports and 1 100BASE-BX Fiber port, the new EC3805F is a Fast Ethernet CPE and can be teamed up with ES3528M-SFP as an ideal FTTx deployment with distance up to 15km

systems strengthen the cores of the Edge-CorE team, targeting to offer more advanced and flexible networking services and solutions.

Products and Services

Edge-CorE is a trusted supplier of high value-added networking products which include ETTx and FTTx solutions, Enterprise switches, Wireless and Broadband Wireless solutions for Carrier / Service Providers, System Integrators, Enterprises. In addition, Edge-CorE provides flexible, reliable solutions and services that meet and exceed clients' requirements, reserving buffer zone in case of any regional demand-fulfillment and feature-implementation needed.

Contact Person and Information

- Phone number: +886-3-577-0270 ext 3530
- Fax number: +886-3-578-6934
- E-mail: sales_ec@edge-core.com
- Contact: Sandra Yang

Main NGN Products/Services

- L3 Fiber Aggregation Switch
(ES4612, ES4624-SFP & ES4626-SFP)
- L2 Metro Access Switch
(ES3528-WDM & ES3528M-SFP)
- L2 Metro Access Fiber CPE
(EC3802-WDM & EC3805F)

Business Classification

- Communication Equipment
- Fiber Core/ Fiber Cable/Bare Fiber
